

Transcending
Kalinga State University
Through the Years

— THE PRESIDENT'S REPORT —
2017-2020

Dr. Eduardo T. Bagtang, CPA
University President

**FIRST TERM ACCOMPLISHMENT REPORT OF
DR. EDUARDO T. BAGTANG AS KSU PRESIDENT FROM
OCTOBER 6, 2017 TO OCTOBER 5, 2020**

Institution Builder

Academic Leader

Resource Manager

KSU COVID-19 Response

Message of the University President

Dr. Eduardo T. Bagtang, CPA
University President

It is a great privilege to serve as President of Kalinga State University. During the last four years, we have reached significant milestones and expanded the reach of our academic undertakings, all with the intention of providing our students with an exceptional university education and preparing them for meaningful lives and careers.

Upon my assumption to office as president of the newly converted university, we immediately crafted policies and strategic plans that would lead the infant University into achieving its vision as a Knowledge and Technology Hub in Asia and the Pacific Region. In pursuit of our vision, there are twenty-three programs that were accredited to various levels and of these programs, nine (9) were level 3 accredited and re-accredited which will due for level 4 accreditation

in 2022. Recently, the University was awarded ISO 9001-2015 Certification for Quality Management System for the enrollment process to conferment of degrees. In continuing the pursuit for quality, the three (3) campuses of the University are currently undergoing surveillance for the phase 2 assessment of all its management process as the three campuses passed the phase 1 assessment. We have also started working on the Institutional Sustainability Assessment (ISA) and the compliance to the requirements of Center of Excellence and Center of Development of at least four (4) programs. We also endeavored to partner with various State Universities and Colleges by extending our Research on Rain-induced Landslide Susceptibility. While extending our researches, we exerted efforts to access research grants from various agencies like CHED, DOST and DA, among others. As we deem the need to expand the linkages of the university, we participated in the Internationalization Program of CHED which resulted to the ratification of 10 international linkages with universities and agencies worldwide. We continued the physical development of the University to cater to the needs of the clientele. We worked hard for the gradual increase of our annual budget that rounded for the transformation of the university and the improvement of the welfare of employees and students because we believe that when knowledge is accessible to all, people can generate better ideas, be more innovative and solve problems.

The progress of our university transformation – a necessary response to our growth – provides tangible representation of our remarkable trajectory. It also underlines one of the key challenges of coping with our success – our commitment to shaping young minds to take the lead and to produce graduates who are not only academically prepared, but also equipped with the global skills and values henceforth our dictum: KSU as a molders of nation builders.

As I conclude my first term as president of KSU, I want to express my sincere gratitude for the support, kindness, hard work and resilience of each and every one that significantly contributed to our accomplishments. Thank you and Mabuhay Kalinga State University!

THE KALINGA STATE UNIVERSITY WAS PLACED UNDER A NEW REIGN OF LEADERSHIP ON OCTOBER 6, 2016 THROUGH THE ELECTION TO THE PRESIDENCY OF DR. EDUARDO T. BAGTANG. AS A PRESIDENT OF A NEWLY CONVERTED UNIVERSITY THE CHALLENGE WAS TO ELEVATE THE STATUS OF THE FORMER INSTITUTION, KALINGA-APAYAO STATE COLLEGE TO A UNIVERSITY LEVEL ALONG THE THREE AREAS: INSTITUTION BUILDER, ACADEMIC EXCELLENCE AND RESOURCE GENERATION AND MANAGEMENT

The President as an Institution Builder

The Kalinga-Apayao State College was established through Presidential Decree No. 2017 in 1986 that merged the former Bibak National Agricultural School (Bibak-NAS) and the Kalinga Community College (KCC). Bibak NAS was established on a 40-hectare lot which is now the main campus of Kalinga State University while the KCC is situated on a .5 hectare property in Dagupan West, Tabuk City that eventually became the Dagupan Campus. Rizal Campus was established in 2008 initially on a 15-hectare donated lot.

At the outset, there were only 3 academic buildings in Bulanao Campus including the Administration and Home Economics building of the then Bibak-NAS. In Dagupan Campus, there were two academic buildings of Kalinga Community College when the two institutions merged. Rizal campus started with four classrooms donated by the Presidential Management Staff and the Filipino Chinese Chamber of Commerce in 2009-2010.

From then on, infrastructure development started to flourish simultaneously with the growth of Kalinga State University in terms of the number of students and personnel, program offerings, budget allocation, research outputs and income-generating projects. The bulk of the physical

plant and site development projects were carried out in Bulanao Campus commensurate with its extensive and vast land area as well as the substantial number of students. Dagupan campus has a limited area for development although improvement and expansion of the buildings were made to accommodate the increasing number of students as well as the establishment of satellite offices to decongest the frontline services in the main campus. Development projects in Rizal campus have been focused on the utilization of the vast land area for agricultural income-generating projects such as small and large ruminants, mulberry plantation and other types of crops. Although recently, buildings have been constructed in the campus to accommodate the increasing number of students and to take advantage of its strategic location being situated in between two cities.

From 2014 to present, substantial funds have been downloaded to or generated by KSU for infrastructure development. Sources of these funds include general appropriations, internally-generated income including tuition and miscellaneous fees of students, business-type income earned by the income-generating projects of the university and trust funds downloaded by funding agencies for the implementation of special projects.

INSTITUTION BUILDING

Present

Before

KALINGA STATE UNIVERSITY MAIN CAMPUS GATE

The construction of the main gate in Bulanao Campus is an effective solution to serve as a first protection barrier in order to ensure the safety of our employees, students and guests within the campus. It was designed purposely to prevent easy passage by intruders and im-

possible to evade by someone trying to break in. Its spectacular design reflects the first impression, beauty and prominence of KSU as an academic institution. Eventually, it will be equipped with security cameras and RFID to regulate entry and exit and installed with LED screen to display important announcements.

Academic Buildings

Academic buildings are vital to HEIs for the reason that it is where their core functions are carried out specifically to provide an environment (physical, social and psychological) conducive for teaching, learning and research activities. Since these activities are people-centered academic buildings should be focused on meeting the client needs and priorities.

Part of the university's master plan is the design and construction of academic buildings in anticipation to the increasing number of students and program offerings more so that KSU is

the only state-run HEI in the province of Kalinga. Studies have shown that the students learning environment is capable of influencing their behavior, comfort, health and productivity. Owing to this, our academic buildings are designed in such a way that they are multi-purpose, interdisciplinary and adaptive so as to allow flexibility in their utilization from a variety of perspectives and disciplines and not confined to a particular program or purpose. They showcase the latest technologies and classrooms that conform to national standards, collaborative learning spaces, student researches and study space, offices and other worthwhile facilities.

UNIVERSITY GYMNASIUM

OLD COGON GYM

PHASE I GYMNASIUM

Students are no longer enduring the inconvenience while having their PE classes and other outdoor and indoor sports activities during rainy days using the old cogon gym. After sourcing out funds for the gradual construction of the new gymnasium, it is finally completed to cater to the sports activities of students and employees. It is a priority program of the university to promote healthy lifestyle habits, offering an opportunity for students to work out, de-stress and improve their academic performance given that students who are physically fit are more alert and attentive in the classroom.

COLLEGE OF ENGINEERING

The College of Engineering and Information Technology started in a one-storey building with two classrooms and shared classrooms in other colleges. The college is now housed in a four-storey building. Today, the College is one of the colleges with biggest enrollment. The structure is the first in Kalinga to be equipped with an elevator.

Old College of Agriculture

COLLEGE OF AGRICULTURE

The College of Agriculture had been using a makeshift structure for holding classes but with the completion of a 4-storey building, the students can comfortably hold classes in air conditioned rooms. Likewise, the faculty room is fully air conditioned with pantry. The building also have laboratories.

Rented Building of the Institute of Health & Sciences

COLLEGE OF HEALTH AND NATURAL SCIENCES

The Two-year midwifery program rented this building of the National Irrigation Administration as classrooms. Currently the students are now enjoying a better learning environment with the construction of the new building. CHNS building has an audio visual room with a seating capacity of 150 persons. The College of Criminal Justice Education is also housed in that building.

Completed Building

Unfinished Building

COLLEGE OF LAW

This Building is now fully completed and is one of the buildings in KSU that is installed with an elevator. It is the second building in the Province of Kalinga with elevator.

KALINGA STATE UNIVERSITY RIZAL CAMPUS

Rizal Campus is the newest campus of KSU. The campus started with donated buildings from Presidential Management Staff and the Filipino-Chinese Chamber of Commerce. It has now a new academic building with laboratory.

Old Building of KSU Rizal Campus

KALINGA STATE UNIVERSITY RIZAL CAMPUS LIBRARY

Phase 1 Campus Library & Administrative Building

Upper photo shows the completed library and administration building in Rizal Campus. The first floor is occupied by the Office of the Registrar, Clinic and the Supply Office; while, the second floor is the library. The Office of the President, Campus Administrator, Finance Office and the conference room is located at the third floor of the building.

New Research & Training Center

RESEARCH AND EXTENSION CENTER

One of the major thrusts of KSU as a higher learning institution is to conduct relevant and high-quality researches that will advance learning and national development and to carry out extension programs in the form of research and technology-transfer activities to partner communities.

The Fits & Research Building

New Hostel

HRM HOSTEL

The completion of the hostel for the Laboratory of HRM students will provide a better training facility for them. The building was initially funded by savings and completed with the funds coming from the GAA.

Cottage

KSU SCHOOL CANTEEN

New Food Court

The BIBAK Cooperative had been serving the students and employees of KSU for 26 years it is the only canteen operating within the university but with the completion of the food court, the students will have a better and spacious venue for dining. This was funded by Senator Loren Legarda.

Only Canteen in the Main Campus

FOOD PROCESSING CENTER

New Building: Food & Technology Center

Old H.E. Building

The completion of the Food and Technology Center will provide a better facility to researchers and students for their classes and practicum. The center also serves as an innovation center for food and other commodities like coffee and root crops.

COMPLETION OF THE ALUMNI CENTER IN PARTNERSHIP WITH CHEVRON INTERNATIONAL

This project is a collaboration with the CHEVRON. This serves as the Alumni Center and at the same, it will also showcase the Culture of the Kalinga people. The design is octagonal which is a typical design of an ancient Kalinga house.

The partnership with CHEVRON also involves the implementation of social projects in upper Kalinga like the construction of multi-purpose buildings, pavements and jewelry, pottery and soft broom making.

STUDENT CENTER: RENOVATION AND IMPROVEMENT

The student center was constructed in 2006-2007. After 13 years, this is now the renovated student center with air conditioning system. Students can now conduct their activities comfortably. It is also in this building where the offices of the Central Student Government and Student Publication are located.

COVERED PATHWAY AT RIZAL CAMPUS

This covered pathway serves as a link between buildings thus protecting the students as they navigate from one building to another especially during rainy and summer season.

KSU WATER SYSTEM TANK

The KSU water system address the water shortage of the main campus. This will be the main source of water that will be distributed to the different buildings of the main campus. It was funded through the GAA.

IMPROVEMENT OF THE BUSINESS CENTER

The business center was renovated to accommodate the expansion of the printing facility of the University and to establish a retail store for the agri and non-agri products of KSU.

The business activities of KSU will be centralized in this building for effective monitoring. The business income of KSU is expected to increase with the improvement of the center.

CONVERTING INTO A SMART CAMPUS: INSTALLATION OF FIBER OPTIC CONNECTIVITY OF ALL BUILDINGS

The installation of fiber optics in the building has improved the internet connectivity of the three campuses of KSU. The Main Campus and Dagupan Campus have an improved connectivity of 200 mpbs from the former 10 mpbs. While Rizal Campus has 10 mpbs from 5 mpbs. About 95% of the buildings are now connected with high speed internet connectivity. This is of great help to the faculty in their asynchronous online classes.

Computer Laboratories

The laboratories are important facilities of a University to enhance the knowledge of the students as well as a source of new knowledge as a result of a research conducted in the laboratories; hence, their continuous improvement.

Biological Laboratory

Physics Laboratory

Video Conferencing Laboratory

On-Going Infrastructure Development

This is a concreting of road network towards the exit gate of the University. It also included the concreting of the frontage of the gymnasium and the hostel.

ON-GOING CONCRETING OF ROAD NETWORKS

ON GOING COMPLETION OF THE PERFORMING ARTS THEATRE

The construction of the amphitheater started in 2004 with an initial funding coming from the GAA with the next phase funded from the use of income. The zero capital for SUCs and change of priorities of the government temporarily stopped the construction until 2019 and 2020 where funding for its completion was provided by the national government.

ON GOING CONSTRUCTION OF FOUR STOREY ACADEMIC BUILDING

This new four-storey academic building was initially funded from the congressional initiative of Congressman Allen Jesse Mangaoang in 2017 and contin-

ued to be funded by the national government thru the GAA. The project is expected to be completed this November 2020. This project will address the shortage of classrooms in the main campus.

ON GOING CONSTRUCTION OF EXPANSION OF HRM BUILDING

This is an ongoing construction of the expansion of the HRM hostel. This will address the requirement for a hot and cold kitchen. The second floor will have additional rooms to accommodate guest of the university. This will also serve as a source of income of KSU.

KSU MUSHROOM BUILDING

This facility is for the research, extension and production of mushroom. The mushroom project started in a makeshift building. Many farmers got interested

in mushroom production and the college of agriculture thru their extension program extended the technology to the farmer-cooperators. The need to expand the project is necessary in order to sustain production and extend it to the communities.

KSU PERIMETER FENCING

Encroachment and astray animals are problems of the University. The fencing of the 40 hectares main campus was necessary.

The area fenced with concrete is 60%; hence, the need to source more funds for fencing.

ON-GOING CONSTRUCTION OF LADIES DORM IN RIZAL CAMPUS

This on-going construction of Ladies Dormitory – Rizal Campus is funded from the GAA of 2020. This will address the concern of female students on the lack of boarding houses near the University. This will also provide a safe place to stay considering the location of the campus which is far the center of the municipality.

BANTAYOG NG WIKA IN PARTNERSHIP WITH KWF

**RENOVATION OF THE
ADMINISTRATION BUILDING**

The administration building was completed in 2001. The rehabilitation is necessary to prolong the life of the building. It provides a better working environment to all the employees.

Research Projects Funded by other Agencies with Capital Outlay Component

Ambato, Tinglayan, Kalinga

CONSTRUCTION OF THE RAINWATER HARVESTING TANKS IN PARTNERSHIP WITH DOST-PCAARRD

This project was funded by DOST-PCAARRD as part of the SAFE Project to improve the yield of the coffee trees in Barangay Ambato Tinglayan and Barangay Bantay Tabuk.

The partnership of KSU and PCAARRD resulted into improving the life of the coffee farmers through the rejuvenation of the coffee trees supported by the steady supply of water because of the constructed water tanks.

Bantay, Tabuk City, Kalinga

YOOKAH NATIVE PIG NUCLEUS FARM: FUNDED THROUGH THE RESEARCH FUND OF PCAARRD

This is another partnership of DOST-PCAARRD where construction of the AI laboratory for native pig was funded by PCAARRD-DOST.

The project also included the registration of the Kalinga Native Pig to the Intellectual Property Office. The Kalinga Native Pig is now called “YOOKAH”.

SERICULTURE PROJECT IN RIZAL CAMPUS

The DOST Region and PTRI provided machines for the production of silk fiber and water system with solar panels.

This Sericulture Project aims to introduce to the farmers and women of Kalinga as alternative source of livelihood by training them to care for silkworm up to processing it to along fiber and reeling it which will be ready for sale to producers of silk cloth.

W/ LOVE '21
ALFONSO

PURCHASE OF VEHICLES: VANS

The minibus for the use of employees and student to shuttle to student and employees activities like the regional sports activities, conferences and seminars within and outside the Province.

PURCHASE OF VEHICLE: BUS

The minibus become beneficial to both employees and students because it serves as their vehicle in attending activities like the regional sports activities, conferences and seminars within and outside the province.

ACQUISITION OF LABORATORY EQUIPMENT

These newly-purchased equipment provide our faculty and students avenue to quality learning that will lead us to achieve our mission in providing assistance in the University's Research and Extension services that could answer to the need of our stakeholders especially is this time of crises.

For the students to experience the exploratory world of Science in their own field of interests and specialization as well, laboratory facilities were provided. Through these new equipment, students will become instruments of innovation in the province.

ACQUISITION OF LABORATORY EQUIPMENT

ACQUISITION OF LABORATORY EQUIPMENT

The President as an Academic Leader

ACADEMIC LEADER

With the full support extended by the Chairlady and the Members of the Board of Regents, several policies and manuals were approved which guided the Academic Leaders of Kalinga State University in achieving the vision, mission and goals of the University. The succeeding slides present the academic achievements from October 2016 to August 2020.

TWENTY-SEVEN (27) APPROVED MANUALS, POLICIES AND CURRICULUM: THESE GUIDED THE ADMINISTRATION IN PURSUING DEVELOPMENT PROGRAMS OF KSU

Since Kalinga State University is considered as a new University having been granted a University status in December 15, 2015, the administration had to revise manuals, policies and curriculum and come up with new ones that is aligned it to the new typology of KSU as a University.

During the period 2016-2020, there were 27 approved manuals, policies and curriculum approved by the Board of Regents. These guided the administration in pursuing development goals towards the achievement of the vision and mission of the University.

Quality Assurance: Accreditation is a Priority

To ensure students that the programs offered in KSU meet certain levels of quality, the administration prioritized accreditation of programs from 2016 to 2020. Of the thirty (30) programs offered by KSU, twenty-six (26) are accredited to various levels and four programs have no accreditation for reasons that these are new and are not yet qualified for accreditation.

There are six (6) programs already accredited level 1, ten (10) to Level 2 while ten (10) other programs are Level 3 accredited. This October to November 2020, three (3) programs are scheduled for Level 2 accreditation while five (5) programs are for Level 3 accreditation and nine (9) programs are for Level 4 accreditation.

QUALITY ASSURANCE ON ACCREDITATION OF PROGRAMS

NOTE: OF THE 30 PROGRAMS, 26 WERE ACCREDITED TO VARIOUS LEVELS. FOUR (4) PROGRAMS ARE NOT YET QUALIFIED FOR ACCREDITATION SINCE THEY ARE NEW PROGRAM OFFERINGS TO COMPLY WITH CHED PRIORITY PROGRAMS

QUALITY ASSURANCE: LIST OF PROGRAMS ACCREDITED TO VARIOUS LEVELS

LEVEL I (Six Programs)

- Bachelor of Science in Computer Engineering
- Bachelor of Science in Hotel & Restaurant Management
- Bachelor of Science in Accountancy
- Bachelor of Science in Office Administration (Bachelor of Science in Commerce)
- Master of Science in Rural Development
- Doctor of Philosophy in Community Development

LEVEL II (Ten Programs)

- Bachelor of Science in Business Administration
- Bachelor of Science in Entrepreneurship
- Bachelor of Arts in English Language
- Bachelor of Science in Civil Engineering
- Bachelor of Arts in Public Administration
- Bachelor of Science in Agricultural Technology
- Bachelor of Science in Information Technology
- Bachelor of Science in Criminology
- Bachelor of Science in Agro-Forestry
- Master of Arts in Business Administration

LEVEL III RE-ACCREDITED (Ten Programs)

- Bachelor of Science in Agricultural Engineering
- Bachelor of Science in Agriculture (Ani. Sci. & Crop. Sci.)
- Bachelor of Science in Forestry
- Bachelor of Arts in History
- Bachelor of Science in Elementary Education
- Bachelor of Science in Secondary Education
- Bachelor of Arts in Political Science
- Master of Arts in Education
- Doctor of Philosophy in Development Education
- Master of Arts Public Administration

3 PROGRAMS ACCREDITED LAST OCTOBER 7-9, 2019

1. Bachelor of Science in Entrepreneurship (Level III-1)
2. Bachelor of Science in Office Administration (Level 1)
3. Bachelor of Science in Accountancy (Level 1)

NUMBER OF PROGRAMS	STATUS OF COPC	YEAR AWARDED
○ 26 UNDERGRADUATE PROGRAMS	COPC AWARDED	2014
○ 4 UNDERGRADUATE PROGRAMS	COPC AWARDED	2019
○ 5 GRADUATE PROGRAMS	AWAITING RELEASE	2015
○ 2 UNDERGRADUATE PROGRAMS	ON PROCESS	2019

As of December 2016, 26 undergraduate programs were awarded COPC although this were awarded in 2014 and 4 were awarded in 2019. Two under graduate programs still on process. The four graduate programs were evaluated in 2015 and all requirements were already complied by the university. CHED Central Office will issue the COPC.

RQUAT VISIT (BS MATHEMATICS, BS BIOLOGY, BS MIDWIFERY, BS ENVIRONMENTAL STUDIES)

QUALITY ASSURANCE: THE ADMINISTRATION PURSUED ISO CERTIFICATION IN 2018-2019

UKAS SURVEILLANCE VISIT FOR ISO CERTIFICATION

Accepting the challenge of President Rodrigo R. Duterte to undergo ISO Certification, the administration subjected the university to ISO 9001:2015 Certification after a rigorous training conducted by DAP. On January 18, 2019 the Quality Management System Certification to ISO 9001:2015 was issued by UKAS. Certification, however was limited to the Main Campus.

SUBJECTED QUALITY MANAGEMENT SYSTEM OF THE PROCESS OF ENROLLMENT TO CONFERMENT OF TITLES TO ISO

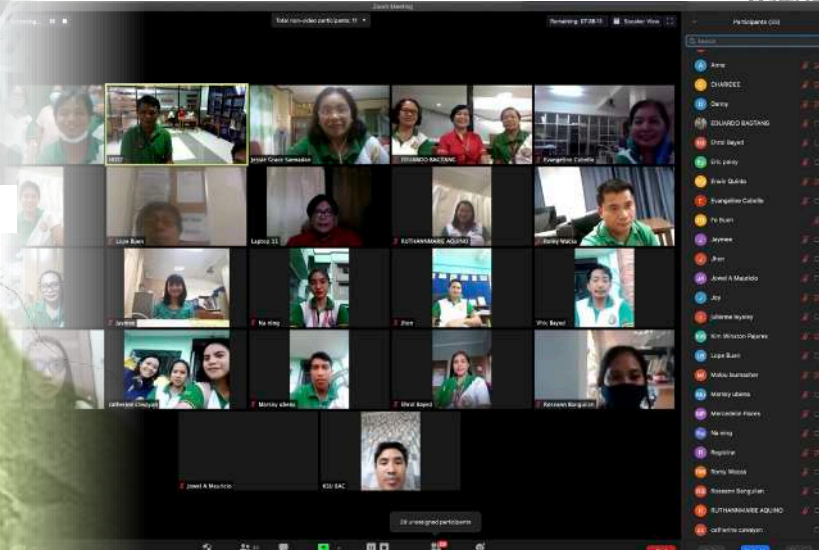

QUALITY ASSURANCE: THE ADMINISTRATION CONTINUED THE PURSUIT FOR A UNIVERSITY-WIDE ISO CERTIFICATION

Last August 2020, the administration subjected the whole University (3 campuses) to ISO 9001:2015 Quality Management Certification. The University is waiting for the official issuance of the Certificate.

SOCOTEC STAGE 1 UNIVERSITY-WIDE VISIT & STAGE 2 VIRTUAL AUDIT

SOCOTEC UNIVERSITY WIDE VISIT

**QUALITY ASSURANCE:
THE COLLEGE OF LAW WAS ALSO SUBJECTED THE LEGAL EDUCATION BOARD INSPECTION**

LEGAL EDUCATION BOARD INSPECTION

The College of Law was also subjected to the Legal Education Board inspection for the reissuance of permit to continuously offer the program. The College passed the inspection with merit.

QUALITY ASSURANCE: STILL IN PURSUIT TO QUALITY ASSURANCE, KSU PREPARED FOR ISA

INSTITUTIONAL SUSTAINABILITY ASSESSMENT ORIENTATION AND WORKSHOP (DR. EMMANUEL JAMES PATTAGUAN) REPRESENTING OIQAG

Still in pursuit of quality, the University conducted an orientation on Institutional Sustainability Assessment with the assistance of CHED. The University is now preparing the requirements for its Institutional Sustainability Assessment.

PREPARING FOR THE CENTER OF DEVELOPMENT AND EXCELLENCE

CENTER OF DEVELOPMENT & CENTER OF EXCELLENCE TRAINING WITH DR. CANDIDA ADALLA AS RESOURCE SPEAKER

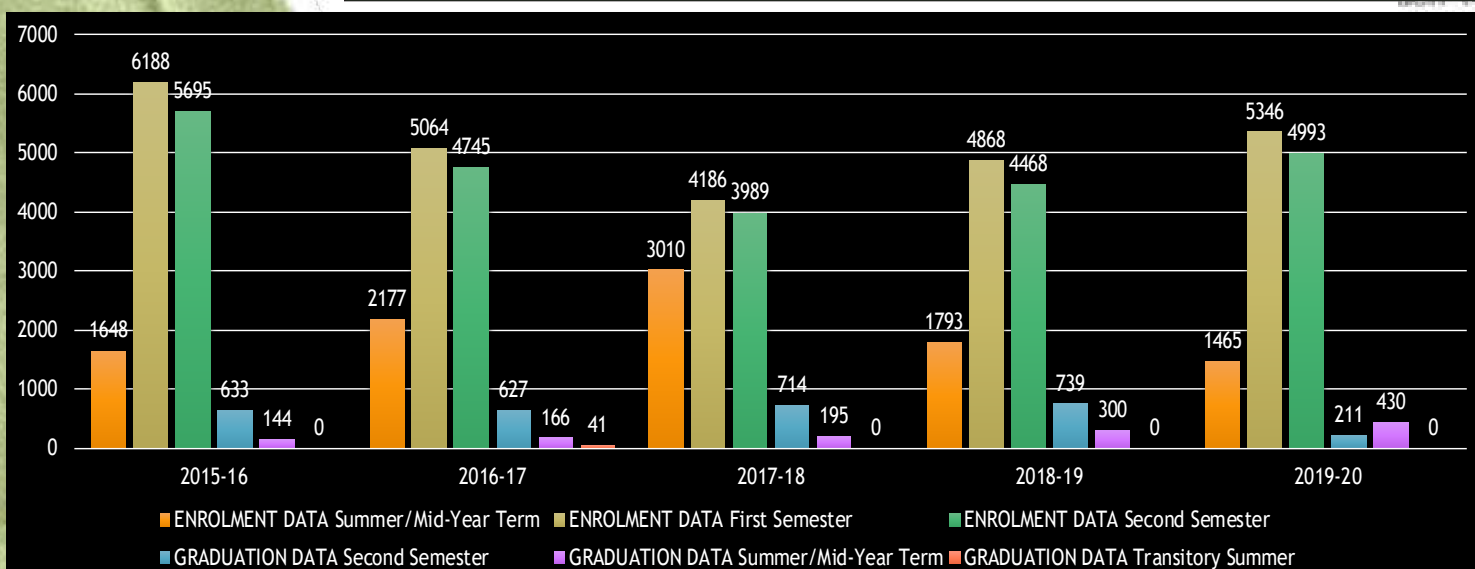

Part of the commitment of the KSU administration is to have a program or programs that is/are recognized as Center of Developments or Center of Excellence; hence, it invited an

expert to orient and guide the University Officials and Faculty on the process and documentation requirements of COD and COE. The University is now in the process of complying the documentary requirements.

MATRIX OF ENROLMENT & GRADUATION DATA (2016-2020)

SCHOOL YEAR	ENROLMENT DATA				GRADUATION DATA		
	Summer /Mid-Year Term	First Semester	Second Semester	Average Enrolment	Regular Graduation	Summer /Mid-Year Term	TOTAL

SUMMARY OF ENROLMENT DATA & GRADUATION DATA (2016-2020)

Performance of KSU in Board Examinations

The average passing rate of KSU in the Board/BAR examinations over the passed three years had been improving. In 2019, it can be noted that the KSU passing rate

is higher than the national passing rate. The B.S. Criminology and and the B.S. Forestry are the programs with a consistent performance of having a higher passing rate than the national passing rate.

STUDENT MOBILITY PROGRAM: PARTICIPATION OF KSU STUDENTS IN INTERNATIONAL PROGRAM

The exposure of students in regional, national and international student activities, internship and OJT is necessary to develop their personality to become better persons. CHED in its CHED Memo No. 22 series of 2013 promotes and encourages student exchange and strong academic linkages with business and industry in other countries for cross-cultural training and skills enhancement to make them competitive not only in the Philippines but also in other countries. The KSU administration strongly supports this CHED Memo.

3RD AUAP STUDENT ENGLISH SPEECH COMPETITION AT SIAM UNIVERSITY, BANGKOK, THAILAND. TWO STUDENTS FROM KSU PARTICIPATED.

SUNBURST YOUTH CAMP 2017 IN SINGAPORE IN WHICH FOUR KSU STUDENTS PARTICIPATED

STUDENT MOBILITY PROGRAM TO ISRAEL

FROM 2016 TO 2019, KSU WAS ABLE TO SENT 76 STUDENTS FOR OJT.

SCHOOL YEAR	NO. OF OJT
2016-2017	21
2017-2018	19
2018-2019	19
2019-2020	17
TOTAL	76

KSU IS ONE OF THE FIRST SEVEN SUCS THAT STARTED THE OJT IN ISRAEL. The graduates of KSU who went for OJT in Israel had their advantage over other graduates without expo-

sure abroad in terms of employment. Several of them are now employed with the Department of Agriculture, DENR, NIA and others were hired in big farms in Saudi Arabia and Hawaii. Many also opted to operate their family farms.

FOREIGN OJT IN ISRAEL

INTERNATIONAL TRAINING AND FACULTY DEVELOPMENT PROGRAM

MANDARIN ENHANCEMENT TRAINING (CHUNG YUAN UNIVERSITY, TAIWAN) MS. ETHEL JOVY GARCIA

The administration of KSU believes that developing the capabilities of faculty members through Trainings and Advance Studies abroad would strengthen the faculty profile of the university and most specially contributes to the quality of education in KSU. Good input results into good a good output.

INTERNATIONAL TRAINING AND FACULTY DEVELOPMENT PROGRAM

郑州大学教育学院第四次教职工民主管理大会

PH.D. IN COMPARATIVE EDUCATION MAJOR IN ECONOMICS EDUCATION IN ZHENGZHOU UNIVERSITY, CHINA. MS. PINKY LANG-AY WAS SUPPOSED TO FINISH HER PH.D. THIS YEAR IN CHINA BUT BECAUSE OF THE COVID 19, THE UNIVERSITY SUSPENDED THE CLASSES OF FOREIGN STUDENTS.

UNIVERSITY OFFICIALS CAPACITY BUILDING

BENCHMARKING ACTIVITY IN TAIWAN FEBRUARY 16-21, 2019

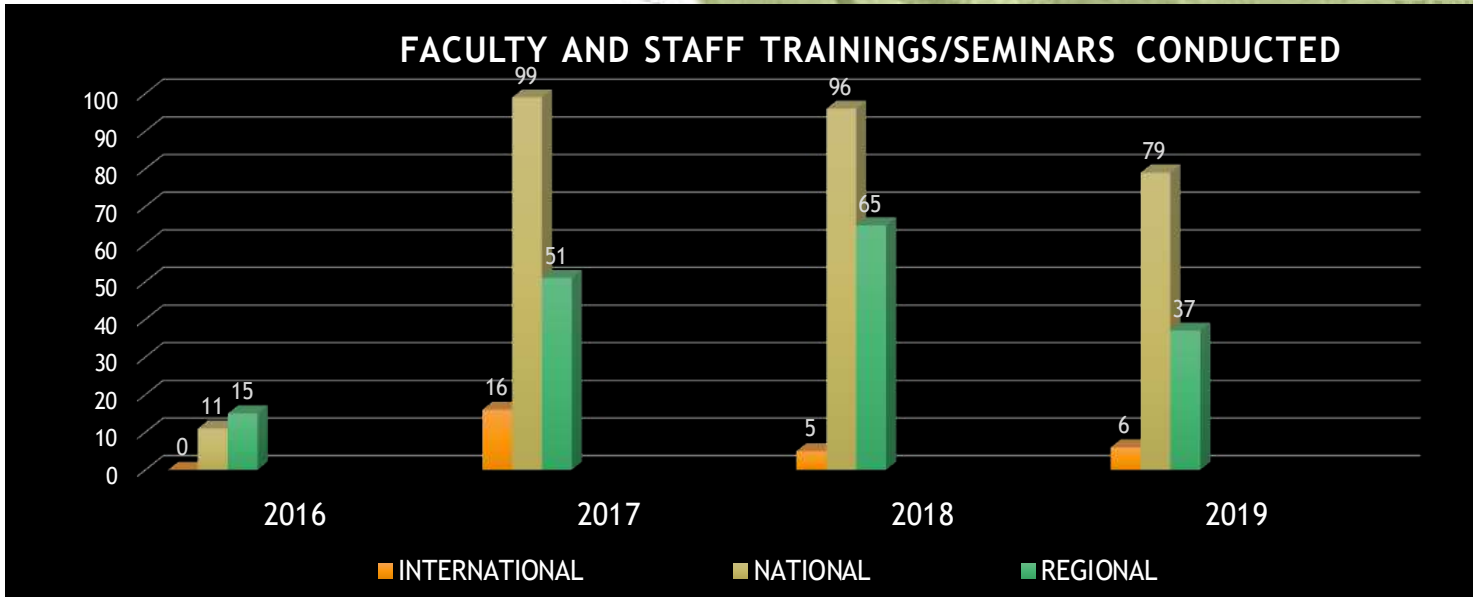

University Officials were also sent to Taiwan Universities for Bench Marking and establish linkages. There were two MOAs forged as a result of the visit.

SOME OF THE INTERNATIONAL PARTNER OF KSU

National Kaohsiung University of Science and Technology

FACULTY AND STAFF TRAININGS AND SEMINARS

It can be observed from the graph that trainings and seminars were intensified during the 2017-2019. Various webinars were also being attended by some faculty and staff this 2020.

CAPABILITY BUILDING OF FACULTY RESEARCHERS

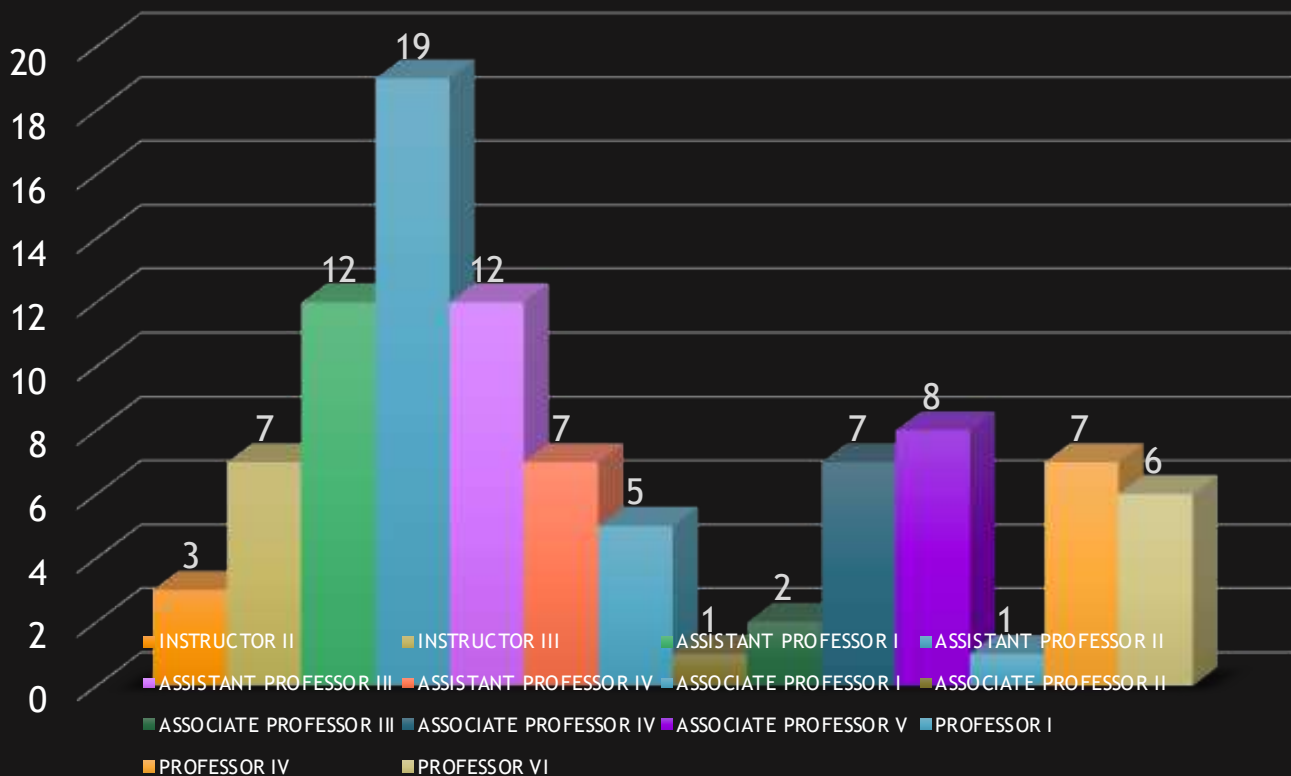

Research proposal writing was also one of the focus of the faculty capability building to improve research outputs.

PROMOTION OF NBC 461 7TH CYCLE

RANKS / PROMOTED TO:	NO.
INSTRUCTOR II	3
INSTRUCTOR III	7
ASSISTANT PROF. I	12
ASSISTANT PROF. II	19
ASSISTANT PROF. III	12
ASSISTANT PROF. IV	7
ASSOCIATE PROF. I	5
ASSOCIATE PROF. II	1
ASSOCIATE PROF. III	2
ASSOCIATE PROF. IV	7
ASSOCIATE PROF. V	8
PROFESSOR I	1
PROFESSOR IV	7
PROFESSOR VI	6
TOTAL	97

The KSU Board of Regents promoted 97 faculty members in 2019 thru NBC 461 7th cycle. Four of them were promoted to a full fledge professors. While majority of the faculty members or fifty of them, were promoted to assistant professors. Twenty-three were promoted to Associate Professors. The Promotions indicated the good results of the opportunities given by the administration to faculty members to pursue advance education, attend trainings and conferences, engage in researches and extension activities which allowed them to earn substantial points that were considered in the NBC 461 evaluation.

PROMOTION OF NBC 461

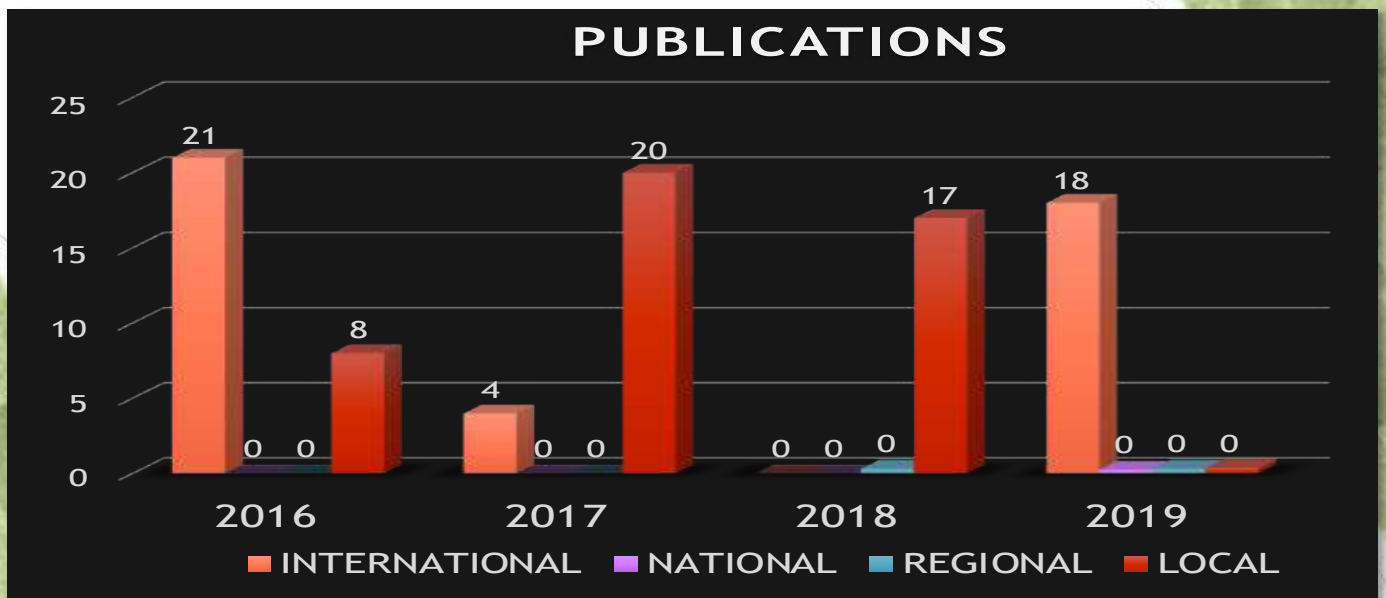

RESEARCH AND EXTENSION
THESE ARE TWO MAJOR FUNCTIONS OF THE UNIVERSITY.
THE INSTITUTION AS A UNIVERSITY SHOULD DO MORE RESEARCHES THAT ARE PUBLISHABLE AND THAT CAN BE EXTENDED TO COMMUNITIES TO IMPROVE PRODUCTION, HEALTH SITUATIONS, KNOWLEDGE AND SKILLS AND ECONOMIC WELL BEING.

RESEARCH PUBLICATIONS

Researches that were conducted must be published so that other researchers may refer to it and can be used by them as references. The deliverables required in the General Appropriations, KSU have to published its researches in indexed and reputable journals.

It can be seen in the graph that in 2016 there were 21 researches published in international journals

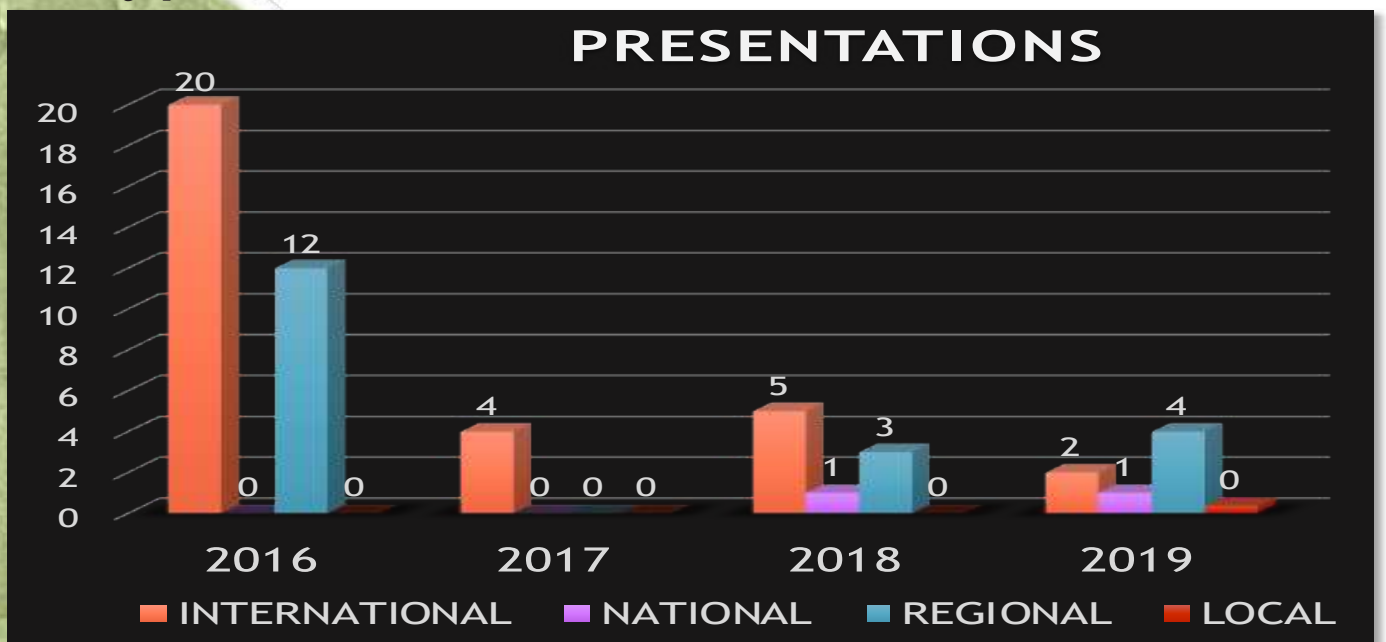

and eight locally. In 2017, only four researches were accepted and published in international journals while 20 researches were published in local journals. In 2018, researches submitted in international journals were considered in 2019 together with the other researches submitted in 2019; hence in 2019 18 researches were published in international journals.

RESEARCH PRESENTATIONS

Research output dissemination is another requirement for the university to comply. From 2016, it can be observed from the graph the downtrend in as far as dissemi-

nating research outputs thru paper presentation in various fora. The graph shows that it was in 2016 where 32 outputs were disseminated and 4 in 2017.

RESEARCH DISSEMINATION THRU EXHIBITS

REGIONAL INVENTION CONTEST AND EXHIBITS IN CAR (BEST RESEARCH AWARDED - CALAMANSI PEELING COOKIES)

The University also participates in exhibits and invention contest as a way of disseminating research outputs. The Calamansi Peeling Cookies won the Best Research Award during the 2020 National Invention Contest and Exhibits of the Department of Science and Technology. Said cookies were also distributed to front liners during the Luzon lockdown and up to now. The production was funded by CHED.

RESEARCH

AWARDS RECEIVED BY RESEARCHES ON 2ND HAARDEC CHED-CAR REGIONAL

BEST PAPER (FINANCIAL EDUCATION NEEDS ASSESSMENT OF SOUTHERN TABUK CENTRAL SCHOOL)

BEST PAPER - 1ST RUNNER UP(LANGUAGE COGNITIVE STRATEGY ANALYSIS IN LEARNERS DIARIES OF COLLEGE FRESHMAN STUDENTS IN KSU)

BEST PAPER - 2ND RUNNER UP (GEOMETRY THROUGH KALINGA HEIRLOOM BEADS: USING INDIGENOUS MATERIALS IN TEACHING MATHEMATICS OF 21ST CENTURY LEARNERS)

RESEARCH PRESENTATIONS

BEST PAPER AND PRESENTER (PINKY LARCELLE LANG-AY AND JESSIE GRACE SANNADAN) RESEARCH ENTITLED "GLOBAL CULTURAL CONVERGENCE: SURFACING EMERGENT AGENDA ON CULTURAL BEING, BECOMING AND BELONGING") AT ANGKOR REGENCY HOTEL, SIEM REAP, CAMBODIA

KSU endeavors to participate in international research conferences to disseminate research outputs. This is also one of the objectives of the university to participate in paper presentation in the international level to be known internationally as budding research university.

1ST INTERNATIONAL CONVENTION ON CULTURAL STUDIES AT ST. MARY UNIVERSITY BY DR. JESSIE GRACE SANNADAN

RESEARCH COLLABORATION WITH CHED

FUNDING AGENCY: CHED
AMOUNT : P10,506,108
DURATION : JAN. 2019-DEC. 2020
IMPLEMENTING AGENCY: KSU

The ALIGN R & D: Enhancing S&T Interventions for the Inclusive Development of the Coffee Industry in Resilient Communities in Kalinga is one of the projects under the center. This project is conceptualized through the initiative of Commissioner Lilian A. De Las Llagas. The University also collaborated with various agencies for research and extension activities since these are two of the mandates of any higher education institutions.

THE UNIVERSITY ALSO COLLABORATED WITH VARIOUS AGENCIES FOR THE RESEARCH AND EXTENSION.

RESEARCH COLLABORATION WITH DOST PCAARRD

STUDENT LEADERSHIP DEVELOPMENT: TEN OUTSTANDING STUDENTS OF THE PHILIPPINES AND IN CAR

THE SEARCH IS ON
for the
57th TEN OUTSTANDING STUDENTS OF THE PHILIPPINES

RAUCHANE TIM B. BATTIKIN

BACHELOR OF SECONDARY EDUCATION
KALINGA STATE UNIVERSITY

Rauchane thinks she is just an average girl who does her best in everything. True enough, she received the Academic Excellence Award, Efficiency in Teaching Award, Adelman Leadership Award and the Most Outstanding Student of the Year Award, among others.

She also served as an officer of their student council who helped organize outreach activities in Kalinga while her involvement as a youth leader in the church provided her an opportunity to serve as a facilitator in the Summer Institute in Biblical Studies. Along with this, her quest for knowledge brought her to participate in national seminars on free education, environment, student discipline, campus crime prevention, and crime scene management in higher education.

JORDAN PAUL C. DANGELAN

BACHELOR OF SCIENCE IN ENTREPRENEURSHIP
KALINGA STATE UNIVERSITY

Jordan did not only receive the efficiency award but also ranked first during their institution's radio drama competition, and second during their Pasikablan, College of Business, Accountancy, Public Administration and Entrepreneurship. His most significant leadership accomplishments also include being a recipient of his institution's Leadership Award, Organizer of his "Participation of BS Entrep in the Ullalim Trade Fair" from 2015-2017, and Second Placer for Outstanding Students of the Year of their institution.

As a responsible leader, he served as a resource speaker of journalism trainings, a facilitator of cooperative management training, and an organizer of the YES gift giving at Lin-Awa Rehabilitation Center.

The President as a Resource Manager

- THE PRESIDENT'S REPORT

THE MANAGEMENT OF RESOURCES IS ONE OF THE CRITICAL AREAS IN THE DELIVERY OF SERVICES OF A STATE UNIVERSITY. CONSIDERING THE LIMITED RESOURCES OF SUCS, BE IT PEOPLE, FUNDS, TECHNOLOGY, EQUIPMENT AND FACILITIES, PLANNING IS NECESSARY TO EFFECTIVELY AND EFFICIENTLY ALLOCATE RESOURCES FOR THE ATTAINMENT OF THE OBJECTIVES AND GOALS OF THE UNIVERSITY. KSU HAVE CAREFULLY PLANNED THE ALLOCATION OF RESOURCES WITH THE APPROVAL AND GUIDANCE OF THE BOARD OF REGENTS.

THE BUDGET FROM THE GENERAL APPROPRIATIONS ACT

The total budget of KSU from 2016 to 2020 had been increasing constantly. The budget for Personnel Services decreased in 2020 because of the number of retirees during the year. The allocation of the capital outlay is based on absorp-

tive capacity. It has the lowest allocation in 2018 because of the capital outlay budget in 2017 that was not fully disbursed which affected the budget in 2018. KSU had a better disbursement rate which resulted into a higher budget.

ALLOTMENT CLASS	2016	2017	2018	2019	2020
PS	95,131,000	124,909,000	145,503,000	199,701,000	193,421,000
MOOE	34,786,000	39,878,000	34,728,000	36,311,000	42,660,000
CO	54,486,000	103,410,000	37,662,000	60,000,000	63,400,000
TOTAL	184,403,000	268,197,000	217,893,000	296,012,000	299,481,000

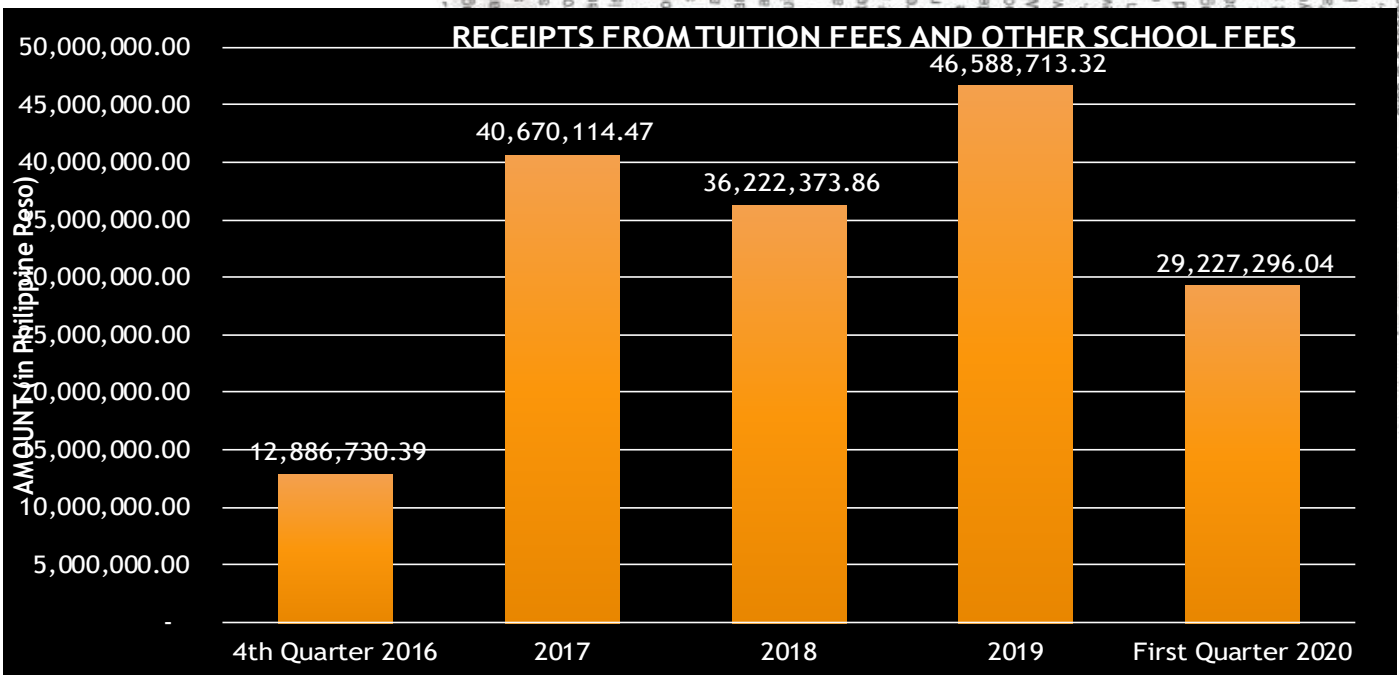

BUDGET OF THE USE OF INCOME

The table shows the sources of income of the University with corresponding budget per year.

SOURCE OF INCOME	2016	2017	2018	2019	2020
Tuition Fees	23,500,000	27,900,000.00	32,490,000.00	32,631,180.00	29,227,296.04
Service Fees	5,125,000	4,150,000.00	3,980,000.00	1,205,255.00	1,657,480.00
Fiduciary Fees	15,000,000	16,000,000.00	15,744,085.00	23,640,755.00	23,186,166.00
Business Type Income:					
Agricultural	2,316,000	2,650,000.00	1,500,000.00	1,500,000.00	1,500,000.00
Non-Agricultural	1,671,000	1,337,000.00	3,000,000.00	5,000,000.00	5,500,000.00
TOTAL	47,612,000.00	52,037,000.00	56,714,085.00	63,977,190.00	66,130,546.00

**SOURCES AND BUDGETED INCOME FROM 2016 -2020
(IN THOUSAND PESOS)**

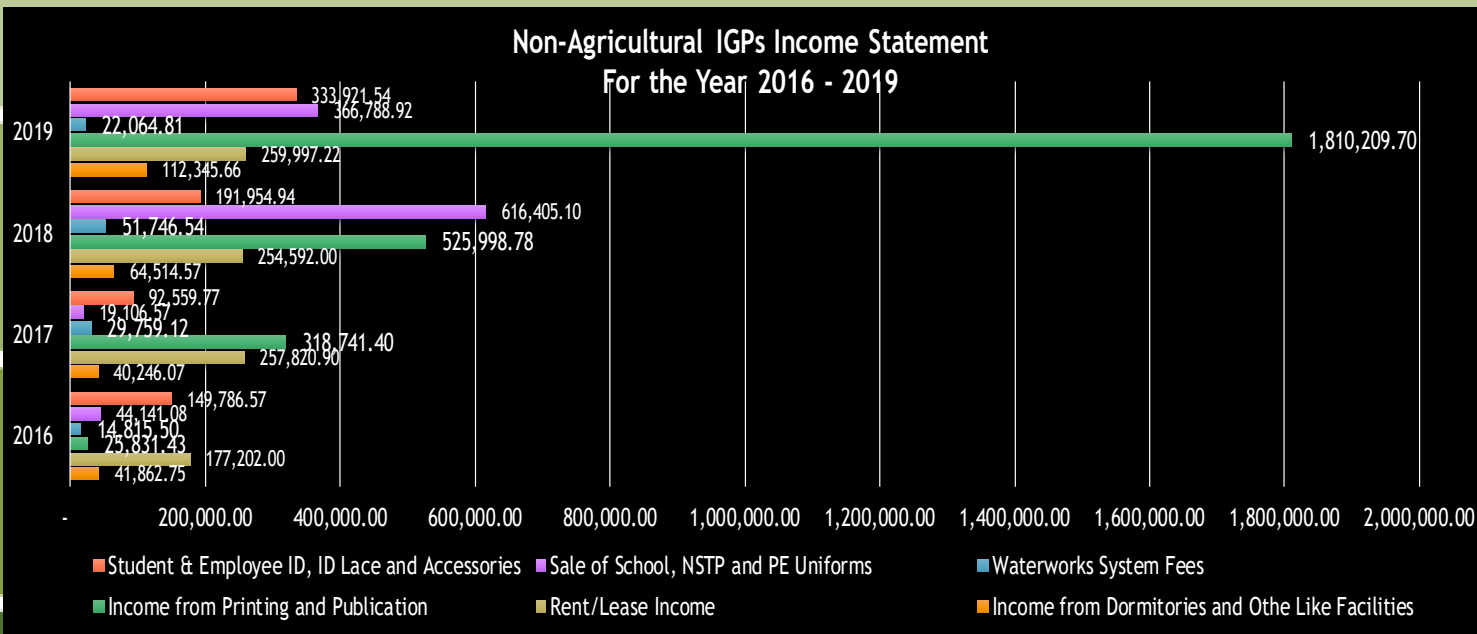

BUDGET OF THE USE OF INCOME

The receipts from tuition fees and fiduciary fees from 2016 to 2020 were based from actual collection of fees. It was in 2019 where the highest collection of fees was registered with a total of PhP46,558,713.32. The 2020 fees to

be collected from UNIFAST is expected to surpass the 2019 collection because the average enrollment in 2020 of 5,169 is higher than that of 2019 which was 4,668. UNIFAST remits the fees based on enrollment.

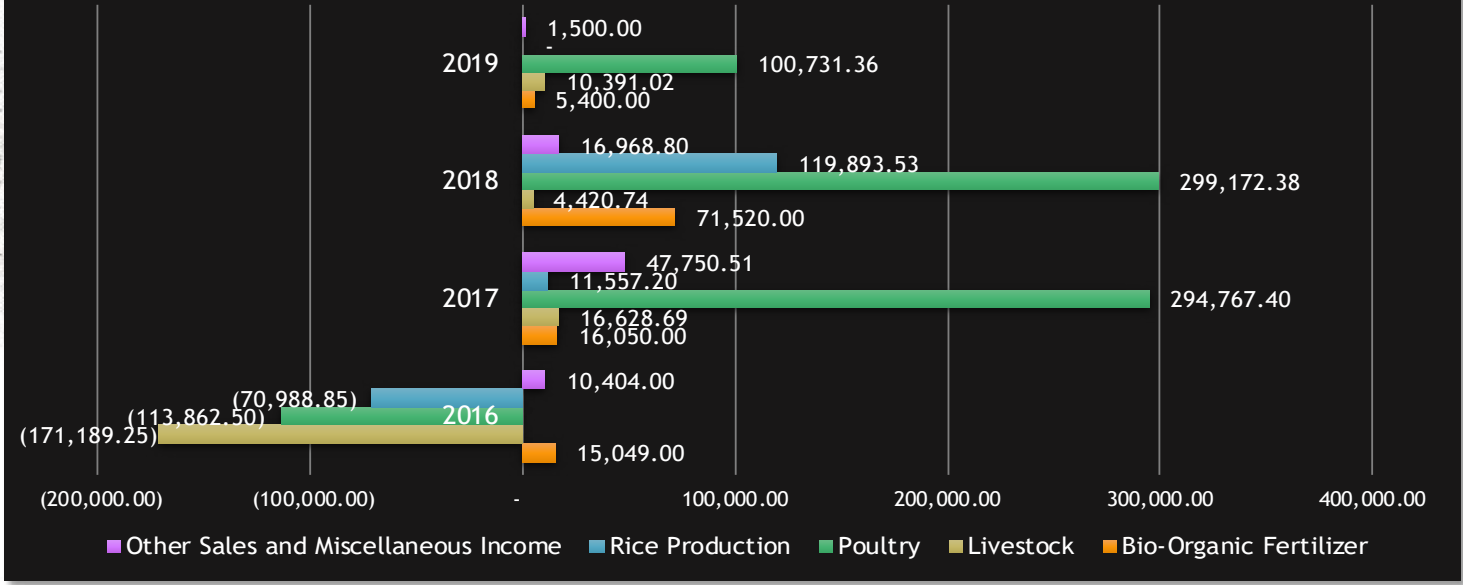

INCOME GENERATION PROJECT

-THE PRESIDENT'S REPORT

INCOME FROM AGRICULTURE-BASED PROJECTS

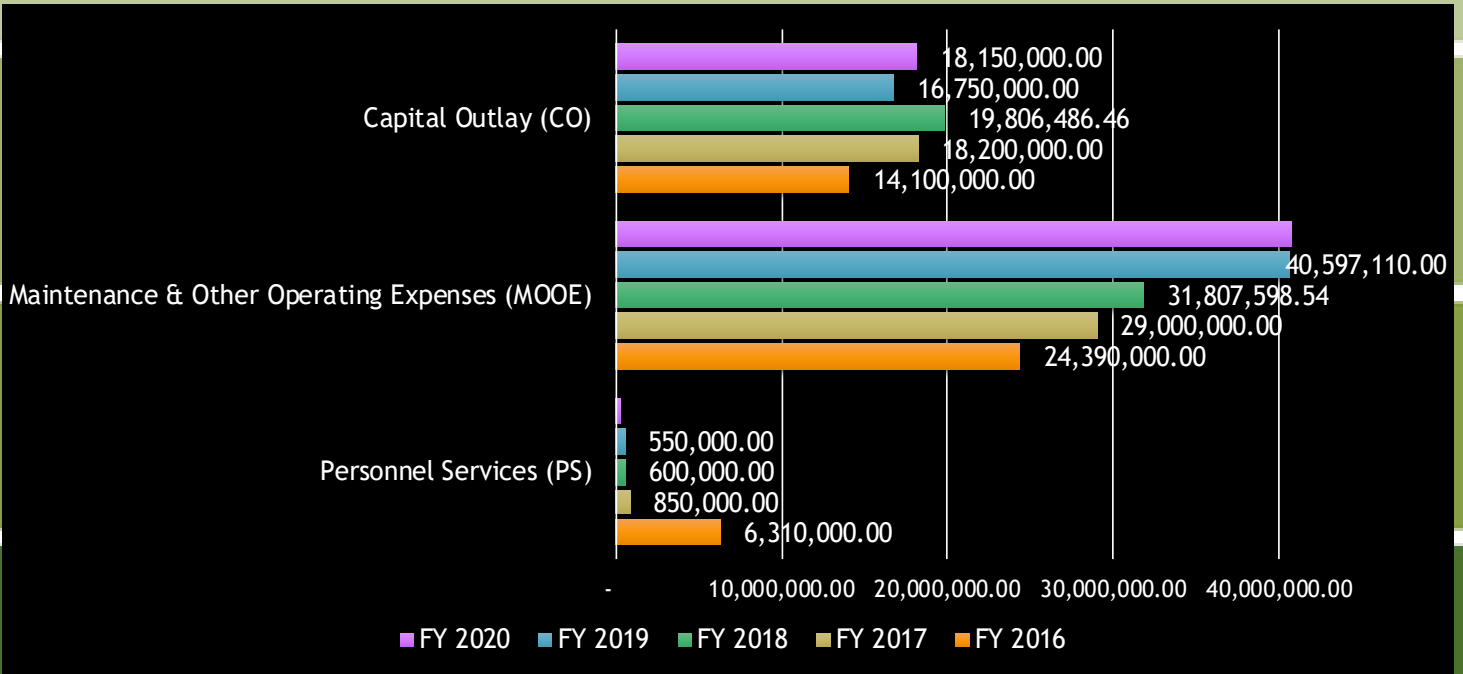

**Agricultural IGPs Income Statement
For the Year 2016 - 2019**

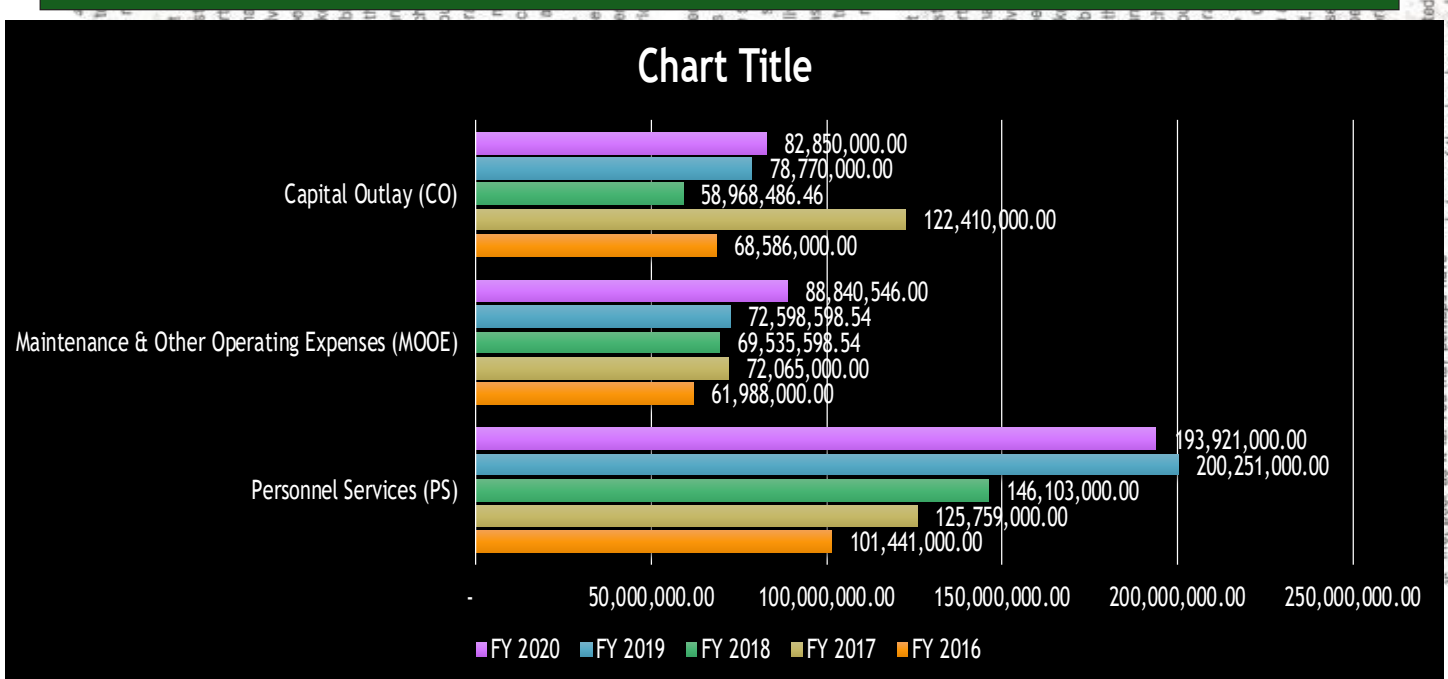

In 2016, it was only the other sales and miscellaneous income that earned an income. All the other income generating projects had losses. However, in 2017, 2018, and 2019 all the agri-based projects

were able to record income with the poultry project having the highest income for the 3-year period.

**OPERATING BUDGET FOR FYS 2016-2020 (INTERNALLY GENERATED FUND)

KSU COVID-19 RESPONSE

Kasupang

Kalinga State University Action Frontline Against COVID-19 Pandemic

MESSAGE OF THE UNIVERSITY PRESIDENT

At the outset, let me express my heartfelt appreciation to each and everyone for our collective response to the unprecedented challenges posed by the CoViD-19 pandemic. This global crisis previously unseen by any of us have caught academic institutions off guard, jeopardizing the ongoing semester.

With astonishing support and under extremely difficult circumstances, we have made adjustments to the calendar of activities in our university to ensure that we can protect the health and wellbeing of our students and personnel. We adopted a flexible learning program by resorting to online learning platforms but because most of our students do not have access to the internet, we reproduced and directly handed them our modules. By resorting to alternative modes of learning, we have not compromised our academic standards and simultaneously minimized the disruptions this pandemic have caused to our normal operation as an academic institution

In our modest desire to actively take part in dealing with the Covid-19 pandemic, we planned and arranged series of activities on account of the resources and technical competence available to help the nation's war against this threat to humanity. From relief efforts to application and implementation of research outputs, the university has mobilized its resources and the community to respond to this global health emergency. As we continue with our undertakings, let us be mindful of, and comply with all the requirements and public health orders from government authorities. Let us maintain a certain level of flexibility to respond to any changes, including those that may emerge later as we move forward.

In the past days, we have all become familiar with concepts like social distancing, self-isolation and flattening the curve – all part of our individual and collective efforts to slow and limit the spread of COVID-19. Let us continue to abide by the orders from lawful authorities while we boost our immune system and keep our minds calm.

Let us anticipate that the coming days and weeks will bring further challenges, calling on all of us to be adaptable, creative and understanding. I wish you all continued strength in your work and studies, and good health to you and your loved ones, as we move forward in confidence together.

May we be faithful each day to joyfully seek God's wisdom and trust His faithfulness for endurance during this time and may this situation teach us lessons of perseverance, innovation, compassion and loyalty to our communities, our state, our nation and our world.

EDUARDO T. BAGTANG, CPA, DBM
University President

Kalinga State University's initial actions to fight CoViD-19

Upon the issuance of a memorandum from the Executive Secretary dated March 16, 2020 that placed the entire island of Luzon under enhanced community quarantine effective 12:00 AM of March 17 and pursuant to CHED COVID Advisory No. 5, Kalinga State University through its president Dr. Eduardo T. Bagtang immediately released an advisory dated March 17, 2020 addressed to all university officials, faculty and staff that laid down the guidelines on the suspension of classes and adoption of an alternative work arrangement to implement the enhanced community quarantine over the entire Luzon.

From then on, KSU has been closely monitoring administrative and executive orders issued by higher authorities in relation to the Covid-19 crisis including orders issued by concerned local chief executives upon which directives from the university president are based. The initial actions of the university focused on the welfare of the students and personnel hence upon suspension of classes and work, a team was organized to trace the whereabouts of students and employees who were stranded in Tabuk City in order to assess the extent of assistance such as food packs that may be provided to them.

(Right photo) Members of the provincial IATF including (from left) Vice Gov. Dave Q. Odiem, Cong. Allen Jesse C. Mangaoang, DILG Provincial Director Max Mayer G. Adong during a weekly press conference. (Left photo) One of the regular meetings of the Provincial IATF held at the capitol building which was attended by representatives from different LGUs and line agencies. KSU has been constantly monitoring updates both from the National and Provincial IATF that serve as guide every time the university president releases a directive.

Launching of the Kalinga State University Action Frontline against Covid-19 Pandemic (KASUPANG)

Kasupang is a Kalinga ethnic term which literally means counterpart. It is an appellation conferred to peace pact holders to acknowledge their incredibly significant task to triumph and uphold peace and order between and among their tribes.

With the novel coronavirus (Covid-19) sweeping across continents and affecting many millions, health authorities, policy-makers and scientists, innovators around the world are racing to devise ways to contain the further spread of the virus. It is our unwavering belief that universities are, and should always be, contributing to this collec-

tive fight against this and future severe and potentially long-lasting public health crises.

In our modest desire to actively take part as a Kasupang in dealing with the Covid-19 pandemic, KSU has planned and arranged series of activities on account of the resources and technical competence available to help the nation's war against this threat to humanity. From relief efforts to application and implementation of research outputs, the university has mobilized its resources and the community to respond to the global health emergency.

Activities conducted to carry out the objectives of KASUPANG

Decontamination of KSU Campuses and Buildings

Precautions are necessary to prevent the potential spread of COVID-19 in school settings. According to the World Health Organization, COVID-19 is mainly transmitted via aerosols and droplets and can exist on fomites for days. The disease may be spread when people touch contaminated surfaces and then touch their face. Regular cleaning and disinfecting of surfaces that are frequent touch-points helps to prevent disease spread.

Among other measures, one of the recommended and most accessible ways to prevent the contracting of COVID-19 is by keeping environment and workplaces clean and disinfected. Consequently, the university procured misting and sprayer equipment and EPA-approved disinfectants that were used to decontaminate the three campuses and buildings which was carried out by the General Services Office and Disaster Risk Reduction Management Office. The decontamination was done once a week for three consecutive weeks during the months of March and April.

Providing transportation assistance and sustenance to stranded students

Upon the effectivity of the enhance community quarantine, all forms of mass transportations such as public utility buses, jeeps, tricycles and among others were suspended. A lot of students and employees who rely on public transportation were adversely affected especially those who hail from other provinces or municipalities outside Tabuk City hence KSU through the Office of Student Development Services and

Placement Services (OSDPS), General Services Office (GSO) and the Disaster Risk Reduction and Management Office (DRRMO) planned and initiated a mission to look for and provide free transportation assistance to stranded students who opted to go home. Students who chose to stay were also accounted and provided with their needs such as food, hygiene and sanitation stuff, and other necessities.

Printing and Distribution of IEC Materials on Covid-19 Prevention

COVID19 health advisories are best communicated and disseminated when they are created in simple and easily understood Information, Education and Communication (IEC) materials. The University Information Office (UIO) compiled health advisories and guidelines issued by the World Health Organization (WHO) and the Department of Health (DOH) and came up with IEC materials in the form

of infographics that contain friendly reminders on how to avoid from getting COVID-19 or prevent its proliferation. The IEC materials were designed using graphics and illustrations and the contents were translated in Ilocano dialect for the local residents to easily comprehend. After the final layout and design, copies were printed at the auxiliary office and were distributed to the different barangays.

Food Processing from Research Outputs for Distribution to Front liners and Health Workers

According to health experts, people who eat nutritious food tend to be healthier with stronger immune systems and have lower risk of being infected with COVID-19. Some faculty who previously conducted a re-

search on the preparation of cookies and brownies using calamansi as a principal ingredient are producing them in substantial volume for distribution to front liners. These food items contains nutrients that helps

boost the immune system and morale of front liners who are risking their lives at the frontlines as they work round-the-clock to save lives.

Embroidery of Washable Face Masks

Recent studies show that a significant portion of individuals with coronavirus lack symptoms (“asymptomatic”) and that even those who eventually develop symptoms (“pre-symptomatic”) can transmit the virus to others before showing symptoms.

This means that the virus can spread between people interacting in close proximity—for example, speaking, coughing, or sneezing—even if those people are not exhibiting symptoms. In light of this new evidence, the Center for Disease Control and Prevention (CDC) recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies) especially in areas of significant community-based transmission.

Kalinga State University on its part came with a design of a washable face mask that complies with the CDC-recommended specifications. These are fashioned from household items or made at home from common materials at low cost for distribution to localities and front liners in the province of Kalinga.

Formulation and Production of 70% Ethyl Alcohol

Currently, the emergence of a novel human coronavirus, SARS-CoV-2, has become a global health concern causing severe respiratory tract infections in humans. Human-to-human transmissions have been described with incubation times between 2-10 days, facilitating its spread via droplets, contaminated hands or surfaces.

Tests have confirmed that two hand sanitizer formulations recommended by the World Health Organization (WHO) inactivate the virus that causes coronavirus disease 19 (COVID-19). In a study on Emerging Infectious Diseases, Swiss and German re-

searchers found that alcohol-based hand sanitizers recommended by the World Health Organization (WHO) are effective in killing the novel coronavirus.

Using available resources, researchers from the central laboratory of Kalinga State University in partnership with Alvento's Food Products and the Department of Science and Technology (DOST) devised a machine capable of producing ethyl alcohol that complies with the standards recommended by the World Health Organization.

Recipients of the 70% Ethyl Alcohol

Recipients	No. of Recipients
Hospital front liners in Tabuk City	7 liters
Barangay Cudal	3 liters
Tabuk City IATF	3 liters
DSWD Kalinga	3 liters
KSU Bulanao Campus	6 liters
KSU Rizal Campus	3 liters

Distribution of Food Packs

The country's first line of defense against COVID19 consists of fearless men and women – our front liners – who brave the pandemic to protect the people against the deadly, fast-spreading disease. Leaving the comfortable presence of their families, they would step out and risk the danger of getting the disease just to offer the services people need during this pandemic.

One way to ease the misery and distress of front liners is to let them feel compassion from the people they serve. As such, front liners – medical workers, policemen, and volunteers – specifically those assigned within the outskirts of Tabuk City were emboldened and inspired when they were provided with food packs prepared by the university.

Recipients of Food packs

Recipients	No. of Recipients
KSU stranded students Dagupan to Bulanao Areas	137
KSU contractual workers	50
Front liners in Tabuk City check-points	120

Production and Distribution of Disinfectant Calamansi Soap

One of the most consistent COVID-19 messages from health experts has been the importance of good personal hygiene. Washing hands with soap is among the simplest and most effective ways of wiping out any virus one may have come into contact with. On account of this assertion, researchers from the College of Health and Natural Sciences studied and introduced a "Do It Yourself" herbal

soap with calamansi juice as a major ingredient purposely for hand and body wash to minimize or prevent the spread of corona virus.

Calamansi disinfectant soaps are produced and distributed to front liners including checkpoint personnel and health workers as part of Kalinga State University's commitment to fight Covid19.

Recipients of Disinfectant Calamansi Soap

Production of Aloemon Hand Sanitizer

Kalinga State University through the College of Health and Natural Sciences manufactured Aloemon Hand Sanitizer to serve as a disinfectant as well as antiseptic material considering the wide spread of the corona virus- the cause of the global health crisis nowadays.

It contains 70 % isopropyl alcohol which is believed to be the most effective disinfectant and has aloe vera gel that contains agents known to help inhibit fungi, bacteria, and viruses. One of its components lemon which is somewhat abundant in

the vicinity contains phytonutrients, which protect the human body against diseases.

Natural sciences faculty spearheaded the production and they were able to produce 6 liters as to date which will be used by the faculty and staff of the university. There will be a mass production of Aloemon in the coming weeks as it is also intended to help the community to fight the virus spreading which caused already several deaths of people not only in the country but all over the world.

FORMULATION

- Contains 70% (v/v) Isopropyl Alcohol, Aloe Vera Gel, Lemon Extract, Essential Oil.

INDICATIONS

- For cleaning, disinfecting and general antiseptic use.

STORAGE

- Store at room temperature not exceeding 30° C.
- Keep in tight-closed container, away from flame and fire.

PRECAUTIONS

- Flammable and keep out of reach of children.

Shift to Flexible Learning Program to finish the School Year

After a meeting with the Academic Council and in compliance to CHED Covid Advisory No. 6 series of 2020 KSU decided to adopt a flexible learning approach to finish the school year 2019-2020 in the light of the prevention, control and mitigation of corona virus disease 2019.

All faculty were advised to prepare teaching modules covering the remaining topics of their respective subjects for the second semester by considering the use of e-learning platforms, Power-

Point materials, video conferencing, stand-alone video recordings and other relevant forms for interactive learning that can substitute a face-to-face lecture methods.

However because of the problem on internet connectivity as most students are residing in areas that lack mobile signal, modules were reproduced and delivered to the students through different local government units as well as the AFP and PNP.

Office of the University President

Message from the University President amid the Enhanced Community Quarantine

It's been a couple of days since we suspended work in campus and classes in all levels as a result of the enhanced community quarantine for fear of a possible widespread outbreak. It is not just our health sector that is struggling with the situation. This global pandemic previously unseen by any of us seemed to have caught academic institutions off guard, jeopardizing the ongoing semester. The COVID-19 health crisis is forcing each of us to make sacrifices and changes we have not expected.

As we face the challenges posed by this unpredictable and rapidly evolving pandemic, I remain profoundly grateful to each of you—our students, faculty and staff—who have and will continue to work tirelessly to adapt to these new circumstances in the furtherance of our core academic mission.

The collective efforts of our national and local government units have helped us respond to COVID-19 challenges as they arise, and we are also mindful that new developments and recommendations are constantly emerging. As you all know, circumstances change on a rapid basis hence I encourage you to check out for the latest updates through reliable mainstream media.

In recent days, we have all become familiar with concepts like social distancing, self-isolation and flattening the curve – all part of our individual and collective efforts to slow and limit the spread of COVID-19. Let us continue to abide by the enhanced quarantine guidelines while we boost our immune system and keep our minds calm. I am encouraging our students to maximize time while under isolation by exploring alternative modes of learning such as reading whatever materials that are available at home.

We can turn this COVID-19 malady into an opportunity to grow closer and build emotional resilience among family members. Let us make use of this opportunity to become productive in some other ways and accomplish tasks at home which we never paid so much attention to before.

Let us anticipate that the coming days and weeks will bring further challenges, calling on all of us to be adaptable, creative and understanding. I wish you all continued strength in your work and studies, and good health to you and your loved ones, as we move forward in confidence together.

May we be faithful each day to joyfully seek God's wisdom and trust His faithfulness for endurance during this time and may this situation teach us lessons of perseverance, innovation, compassion and loyalty to our communities, our state, our nation and our world.

With gratitude and affection,

EDUARDO T. BAGTANG, CPA, DBM
University President
